FNSBSD Required Mitigation Efforts

- Students & families will review the [Daily Decision Tree](#) prior to coming to school
- Clean masks are required at all times
- Frequent handwashing
- Hand sanitizer will be plentiful
- Social distancing shall be maintained where possible
- Limit the mixing of student pods as much as possible
- Classes and lunches must utilize seating charts
- Social distancing signs and decals are posted throughout schools
- One way hallways utilized where appropriate
- Multiple entrances and exits are used

Keeping illness and close contacts out of our school is key to a successful In-Person Learning Program. Students' health is monitored upon arrival. Our nurse is alerted for an assessment if a sick student is identified. Students who have Covid like symptoms are required to quarantine for 10 days. At school, ill students are monitored in isolation rooms until parent pick-up. Communication with our teachers, nurse and staff is key to maintaining our safe school. Everyday students need to follow our safe learning procedures, several clean masks, water bottle, and a clean bill of health to maintain our school's safe learning environment.

Our plans are constantly evolving to best meet our school learning and safety needs.
