Student nutrition services and all other food and beverage venues will offer a variety of affordable, nutritious food and beverages that meet the health and nutrition needs of students.

Food and beverage provided by the school during the school day will comply with the current federal nutrition standards for all food and beverages sold in schools as defined by administrative regulation (see AR 1061.3).

The district's breakfast and lunch program will continue to meet or exceed the current federal nutrition standards for all food and beverages sold in schools. If a la carte foods are available, they will include a variety of choices of nutritious foods, such as fruit, vegetables, whole grain, and low-fat or non-fat dairy food.

Schools will provide clean and safe eating environments, as well as adequate time and space to eat breakfast and lunch. Drinking water and hand-washing facilities should be conveniently available at all times. Using food as a reward will be discouraged.

A list of healthy classroom snacks and party and fund-raising ideas will be disseminated to parents and teachers.
