Schools will actively develop and support the engagement of students, families, and community partners in providing and participating in healthy school-based activities for students, including after-school activities.

The district will actively promote healthy eating choices and physical activity through websites, newsletters, posters, and at school. Schools will provide information to families on how children can be safe and healthy in outdoor environments, including winter survival information.

The district will encourage involvement by students traditionally underrepresented in student activities and will solicit and honor student input whenever possible.

Schools will offer a range of activities that meet the needs, interests, and abilities of all students, including a diverse selection of competitive and noncompetitive, structured and non-structured activities.
