Tyson Product Formulation Statement

Tyson

Product Name: Fully Cooked Breaded Chicken Drumsticks Code No: 16660100928

Manufacturer: Tyson Foods, INC Case/Pack/Count/Portion/Size: 29.64 LB / 72-113 / 1 (5.15 oz.) Drumstick

I. Meat/Meat Alternate

Please fill out the chart below to determine the creditable amount of Meat/Meat Alternate

	Description of Food Buying Guide	Ounces per Raw Portion of Creditable Ingredient	Multiply	FBG Yield	Creditable Amount *
Chicken	DRUMSTICK W/BONE W/SKIN	4.0917107	X	0.49	2.00493824
Total					2.00493824

* Creditable Amount - Multiply ounces per raw portion of creditable ingredient by the FBG Yield Information

Total weight (per portion) of product as purchased 5.15 oz.

Total creditable amount of product (per portion) 2.00 oz.

(Reminder: Total creditable amount cannot count for more than the total weight of product.)

I certify that the above information is true and correct and that a 5.15 ounce serving of the above product (ready for serving) contains 2.00 ounces of equivalent meat/meat alternate when prepared according to directions.

I further certify that any APP used in the product conforms to the Food and Nutrition Service Regulations (7 CFR Parts 210, 220, 225, 226, Appendix A) as demonstrated by the attached supplier documentation.

Our products are packed based on the average number of servings. The average servings per case is calculated and checked for compliance for every production shift (eight hours). The average servings per case, as set forth on the EPDS, meets FNS guidelines. The serving price has been calculated using the average number of servings. While the number of servings in each individual case could vary, the per serving price in this bid has been calculated to accurately reflect the per serving price over the school year.

Material Reformatting

Tyson

Overview

We will be implementing a single SAP order entry platform across all campuses in January 2019 which will support our phased approach of our distribution "network of the future" which will roll out over the next three years. This will include a reformat of our **master data** that supports our **internal material numbers (product numbers).**

Why are we doing this?

This will standardize our data across all campuses, production facilities and our distribution network, enabling Tyson to fully automate across our entire supply chain and better enable the network of the future.

What changes will impact you and what is the timing?

The change to our internal Tyson material number should have limited impact to you. The first change you will notice is on product labels. Legacy product numbers will remain on all labels and beginning July 15, 2018 we will begin to include the new Tyson material number. Additions of the new Tyson material number to the product label will happen on a rolling schedule over the next several months.

The second change, order entry, will ONLY impact customers using a Tyson, Hillshire or Advance-Pierre product code to place orders. These customers will need to covert to the new material code prior to our conversion date of January 27, 2019. Tyson will provide guidance to help you make these changes starting in the fall of 2018.

The third change, is the distribution "network of the future" which will be a phased roll out across the country over the next three years. Tyson Sales, Distribution, and Logistics team members will be reaching out their appropriate customer partners as those locations and changes get closer.

What is not changing?

Related to this initiative, we are not changing any of the following key items:

- GTIN/UPC
- Product Name Short Description
- Brand Description
- Product Formulation
- Producing Locations

What do you need to do?

1. Be prepared to see label changes as soon as July 15, 2018 and communicate those changes to your customers or teams.
2. Work closely with your Tyson Sales team who will proactively provide guidance on any needed order changes prior to January 27, 2019.
