

Laura Amundson

My husband Dan and I have four children and three grandchildren. Together we like to camp at our cabin on the Goodpaster River and we also love to fish and pick berries and hunt for moose. My goal as an ANE Tutor is to ensure that students that I work with are successful in their schoolwork and that they stay positive in their academic endeavors. It is a joy to work with our students; the energy they have is always rewarding. I sincerely hope that this turns out to be a great school year and will work hard to provide support and assistance to our students.
