Fairbanks North Star Borough School District  
SPORTS PHYSICAL FORM

PART A: To Be Filled Out by the Athlete

Name: ____________________  School: ____________________  Grade: __________
Address: ____________________  Phone Number: ____________________
Date of Birth: ______________  Age: __________  Name of Parents: ____________________
Sport(s): ____________________  Position(s): ______________  Coach(es): ____________________

Please check if you have had any problems in the following areas:

- Concussion, “Knocked Out”
- Neck Injury
- Back Injury, Pain
- Shoulder Injury
- Arm, Elbow, Hand Injury
- Knee Injury, Popping
- Groin, Thigh, Leg Injury
- Ankle, Foot Injury
- Swelling, Pain, Locking or giving way

Yes  No

Have any members of your family under the age of 40 had a “heart attack” or sudden death?
Have you ever had chest pain while exercising or passed out?
Do you have coughing, wheezing, or severe shortness of breath with exercise?
Are you taking any medication?
Do you have any allergies?
Have you had ear problems or difficulty hearing?
Do you wear glasses or contact lenses?
Have you ever had any discomfort in your groin (hernia)?
Have you ever had any illness or injuries that required hospitalization, surgery, or repeated visits to the doctor?

PART B: To be Filed Out by the Physician

Height: ____________________  Weight: ____________________  Blood Pressure: ____________________
Eye: R 20/________ L 20/________  Ears: __________  Skin: __________  Lungs: __________
Heart: __________  Abdomen: __________  Neurologic: __________  Urinalysis (if indicated): __________

**Parent/Guardian Permission to Participate:**
I hereby give permission for the above-named student to engage in ASAA or Fairbanks North Star Borough School District approved interscholastic activities as a representative of his/her school. I also give my consent for this student to accompany the team or group as a member on its out-of-town trips. I understand that the local Board of Education through the Fairbanks North Star Borough carries insurance for accidental injuries sustained in intramural or interscholastic sports events.

**Parent/Guardian Medical Consent:**
I hereby give my consent, in the event of injury or illness, for emergency medical treatment, hospitalization, or other medical treatment as may be necessary for the welfare of the above-named student, by a physician, qualified nurse, certified athletic trainer, and/or hospital during all periods of time in which the student is away from his/her legal residence as a member of an interscholastic activity team or group. Further, I hereby waive, on behalf of myself and the above-named student, any liability of the School District, its agents, or employees arising out of such medical treatment.

### Any Medical Conditions?

### Any Medications?

### Any Allergies?

In case of any medical emergency, I authorize a school district employee to take my son/daughter to the nearest medical facility for necessary treatment. We, the undersigned, acknowledge that we have read and understand all aspects of this form, including all the above parts and grant permission and consent as required. I hereby authorize release of the above student's required physical examination record to the school in which the student is enrolled. This confidential information may be shared with the coach and activities coordinator.

ASAA Tobacco, Alcohol and Drug Acknowledge Form

Student, Parent/Guardian Acknowledgement Form

Please read the following statements, sign below and return to your school's office.

1. I have participated in ASAA's "Play for Keeps" orientation and have watched the DVD presentation.
2. I understand the terms of the Tobacco, Alcohol, and Controlled Substances Policy as explained during the presentation, including the penalties for violations.
3. I further understand that it is solely the school’s responsibility to determine if a violation has occurred and that the school’s decision may not be appealed to ASAA.
4. I further understand that schools are required to report each violation to ASAA and to maintain strict confidentiality as specified in the policy. More specific wording of the confidentiality statement is found in the policy which is available from the school or at www.asaa.org.
5. I further understand that a student's parent/guardian must participate in the orientation and sign this form at least annually for the student's eligibility.
6. I further understand that a copy of the signed form must be returned to the school before the student is permitted to participate in interscholastic activities.
7. I further understand that schools shall keep a copy of the signed forms on file.
8. After participating in the "Play for Keeps" orientation and having the opportunity to review and understand ASAA's Tobacco, Alcohol and Controlled Substances Policy, the violations, penalties, and reporting requirements, I agree (both student and parent/legal guardian) to be bound by the terms of the policy.

What is a concussion?
A concussion is a brain injury that:
• Is caused by a bump, blow, or jolt to the head or body.
• Can change the way your brain normally works.
• Can occur during practices or games in any sport or recreational activity.
• Can happen even if you haven’t been knocked out.
• Can be serious even if you’ve just been “dinged” or “had your bell rung.”

All concussions are serious. A concussion can affect your ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most people with a concussion get better, but it is important to give your brain time to heal.

What are the symptoms of a concussion?
You can’t see a concussion, but you might notice one or more of the symptoms listed below or that you “don’t feel right” soon after, a few days after, or even weeks after the injury.
• Headache or “pressure” in head
• Nausea or vomiting
• Balance problems or dizziness
• Double or blurry vision
• Bothered by light or noise
• Feeling sluggish, hazy, foggy, or groggy
• Difficulty paying attention
• Memory problems
• Confusion

What should I do if I think I have a concussion?
• Tell your coaches and your parents. Never ignore a bump or blow to the head even if you feel fine. Also, tell your coach right away if you think you have a concussion or if one of your teammates might have a concussion.
• Get a medical check-up. A doctor or other healthcare professional can tell you if you have a concussion and when it is OK to return to play.
• Give yourself time to get better. If you have a concussion, your brain needs time to heal. While your brain is still healing, you are much more likely to have another concussion. Repeat concussions can increase the time it takes for you to recover and may cause more damage to your brain. It is important to rest and not return to play until you get the OK from your health care professional that you are symptom-free.

How can I prevent a concussion?
Every sport is different, but there are steps you can take to protect yourself.
• Use the proper sports equipment, including personal protective equipment. In order for equipment to protect you, it must be:
  - The right equipment for the game, position, or activity
  - Worn correctly and the correct size and fit
  - Used every time you play or practice
• Follow your coach’s rules for safety and the rules of the sport.
• Practice good sportsmanship at all times.

It’s better to miss one game than the whole season.
For more information and to order additional materials free-of-charge, visit: www.cdc.gov/Concussion.

Centers for Disease Control and Prevention
CONCUSSION RETURN TO PARTICIPATION PROTOCOL (RTP)
Administrative Regulation 1062.4

1. During the symptomatic periods, the student shall not engage in any physical or athletic activity. The student must have returned to full academic activity and received medical clearance prior to initiating the protocol for Return to Participating in Physical and Athletic Activity. All student athletes with a concussion must successfully complete the following RTP protocol before resuming full athletic activity.

2. Advancement through the protocol takes a minimum of six (6) days between steps one through six, with at least 24 hours between each step. However, the rate of progression through the steps in the protocol is meant to be individualized and therefore could take longer.

3. Factors indicative of a slower rate of return may include a younger student; history of previous concussions; the number, severity, and duration of concussion symptoms; and the concussions risk of the activities or sports to which the student will return. Physical or cognitive activity that provoked recurrence of concussive symptoms will delay recovery and increase the risk of future concussion. Therefore, if symptoms recur at any step, then physical activity should stop for 24 hours and resume at the previous step.

4. Protocol: The student begins at the baseline of no physical activity as long as the student experiences symptoms. The student could remain at this baseline for days or weeks. When the student is able to participate in academic activities without modifications, is symptom free for 24 hours and cleared by a qualified health care provider, student may progress to Step 1.

Step 1

☐ Light aerobic activity increasing heart rate for 10-15 minutes but not requiring cognitive attention or sustained concentration. Examples include: walking, swimming, and riding a stationary bike, but no resistance training.

☐ If no symptoms, then student may progress to Step 2 after 24 hours.

☐ If symptoms recur, cease physical activity for 24 hours.

Step 2

☐ Light to moderate aerobic activity for 30 minutes with limited body and head movement. Examples include jogging, more intense walking, swimming, riding a stationary bike, but no resistance training.

☐ If no symptoms, then student may progress to Step 3 after 24 hours.

☐ If symptoms recur, cease physical activity for 24 hours and resume at Step 1.

Step 3

☐ Moderate to heavy aerobic activity for 30 minutes but no contact. Examples include running, swimming, cycling, skating, Nordic skiing, but no resistance training.

☐ If no symptoms, then student may progress to Step 4 after 24 hours.

☐ If symptoms recur, cease physical activity for 24 hours and resume at Step 2.

Step 4

☐ Heavy aerobic activity for 30 minutes which may be intense but no contact. Examples include hard running, swimming, cycling, skating and, Nordic skiing.

☐ Resistance Training allowed (push-up, sit-up, weightlifting) for 15 minutes.

☐ If no symptoms, then student may progress to Step 5 after 24 hours.

☐ If symptoms recur, cease physical activity for 24 hours and resume at Step 3.

Step 5

☐ Return to practice, non-contact limited participation to routine, sport-specific drills.

☐ If no symptoms, then student may progress to Step 6 after 24 hours.

☐ If symptoms recur, cease physical activity for 24 hours and resume at Step 4.

Step 6

☐ Return to full contact practice.

☐ If no symptoms, then student may progress to Step 7 after 24 hours.

☐ If symptoms recur, cease physical activity for 24 hours and resume at Step 5.

Step 7

When a student completes the RTP protocol by returning to full contact practice without experiencing symptoms and is cleared by an athletic trainer, if available, or other qualified health care professional, student is medically eligible for competition. Student must meet ASAA eligibility criteria in order to return to competition (see School Board Policy and AR 955.21).

PARENT AND STUDENT VERIFICATION OF RECEIPT OF
INFORMATION CONCERNING CONCUSSIONS
Administrative Regulation 1062.4, Appendix A

In accordance with AS 14.30.142, the school district requires that each student, and each minor
student's parent/guardian, receive written information on the nature and risks of concussions
each year. Students may not participate in school athletic activities unless the student and
parent/guardian of a student who is under 18 years of age have signed a current verification that
they have received the information provided by the district. Parents will be provided with a
pamphlet provided by the Alaska School Activities Association entitled "A Parent's Guide to
Concussions in Sports." Students will be provided with a fact sheet produced by the U.S. Dept.
of Health and Human Services Centers for Disease Control and Prevention entitled "Head's Up:
Concussion in High School Sports – A Fact Sheet for Athletes." Students who are 18 years of
age or older will also be provided with the Parent's Guide. Other suitable age appropriate
documentation fulfills this requirement.

Parents and students should review this information, discuss it at home, and direct any
questions to the student's coach, school principal or athletic activities coordinator.

STUDENT ACKNOWLEDGEMENT (required for all athletes)

I acknowledge that I have received a copy of "Head's Up: Concussion in High School Sports – A
Fact Sheet for Athletes" and understand its contents.
