

# How to add a printer to a Google account

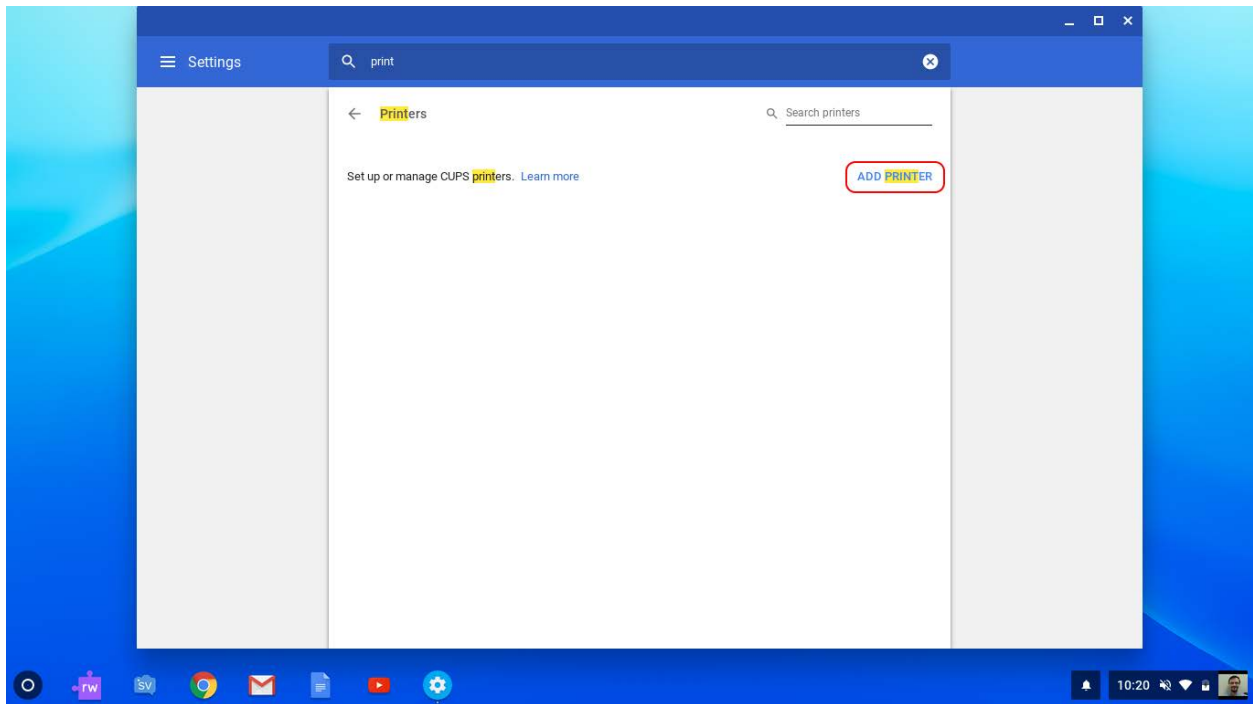

1. Click in the bottom right corner and click the Settings gear

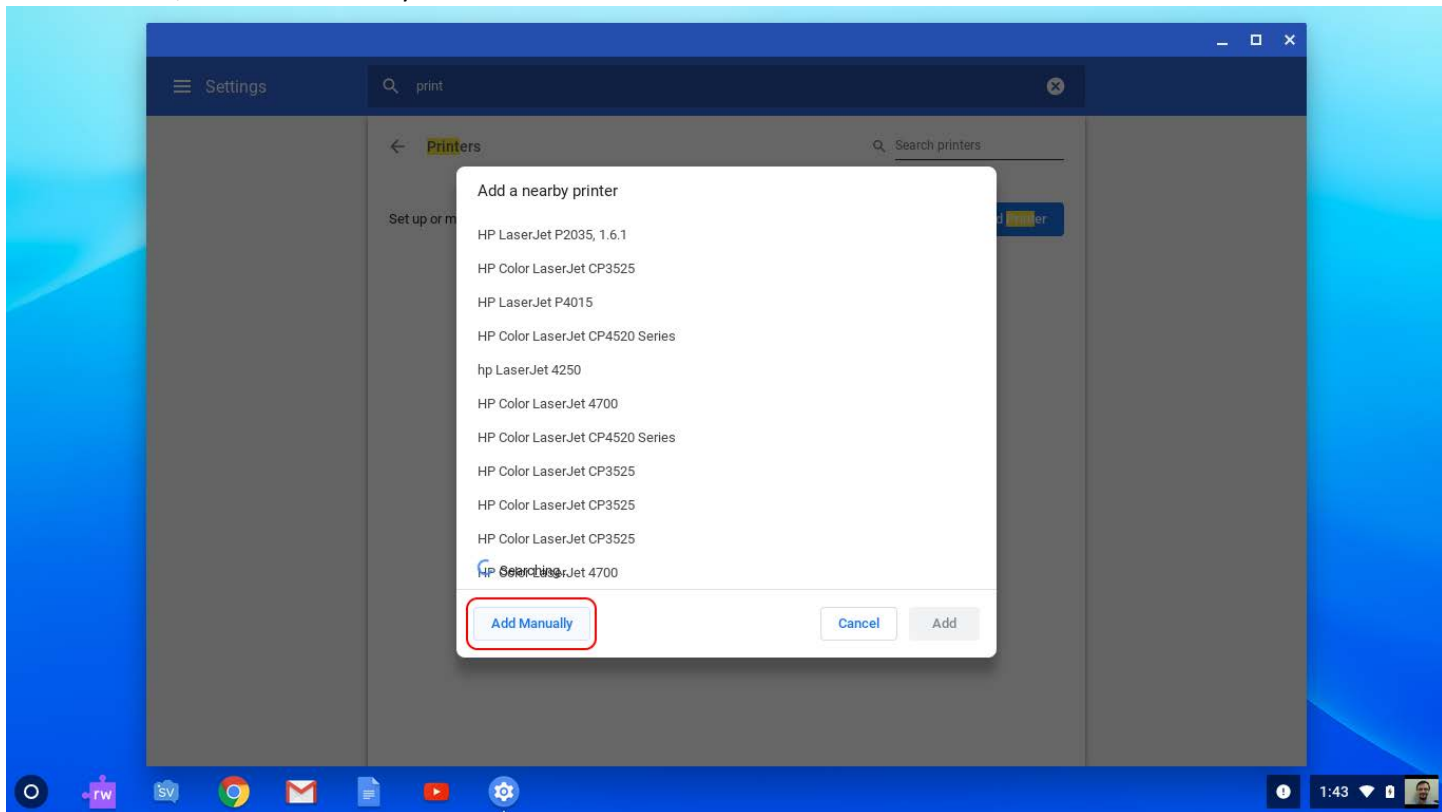

2. Type **Print** in the search box and click Printers

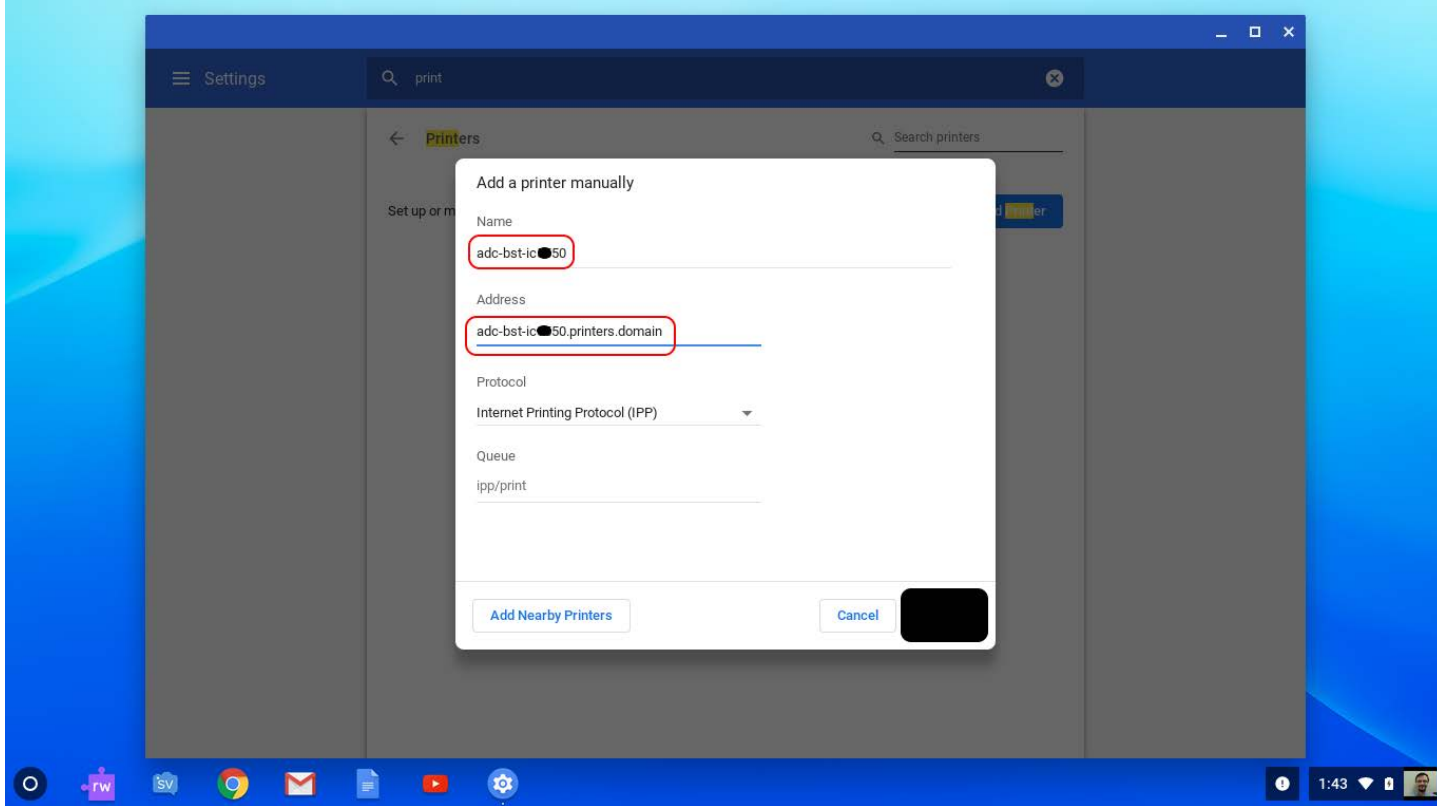

3. Click ADD PRINTER

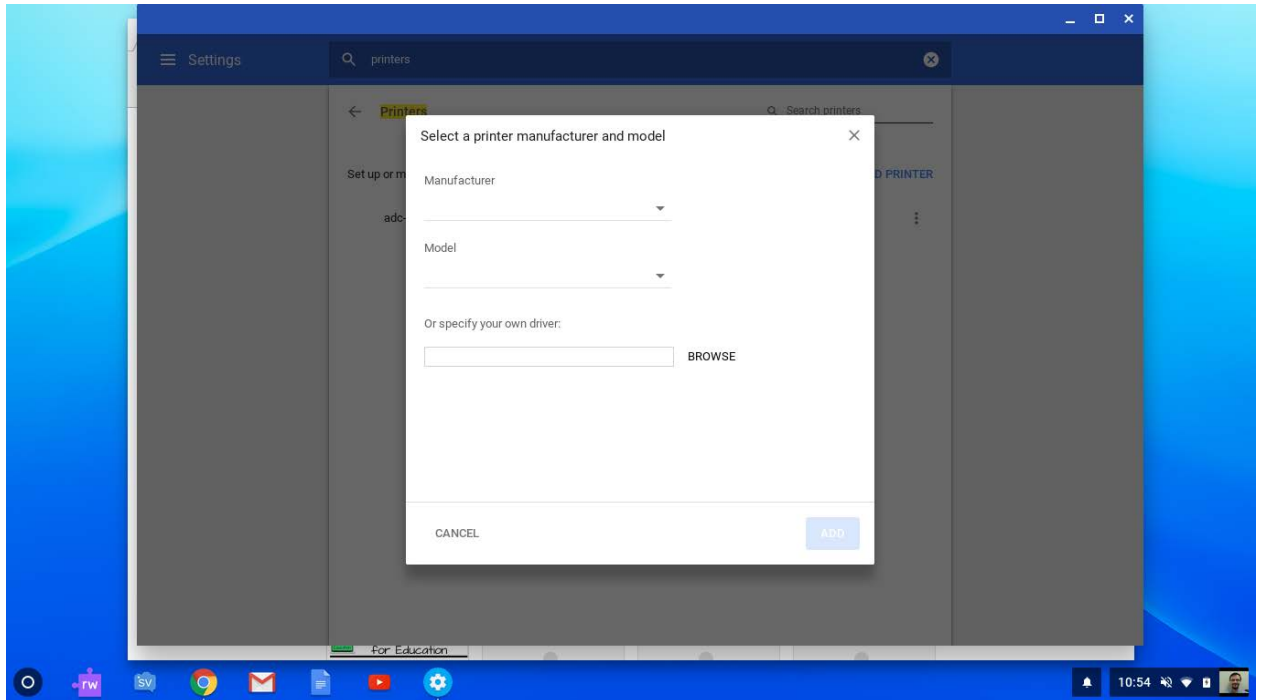

4. At the bottom, click Add Manually

5. Type in the name of the printer, then type in the full address of the printer

a. (If it asks for Manufacturer/Model/Driver, this printer is not compatible with this method)

That printer will now follow the Google account from device to device.
