

# STEMKAMP

## YEAR 1

Throughout summer 2021, Goshen Education Consulting hosted hands-on STEM summer camps at 10 public schools located near military bases. This is the first year of a 3 year grant funded by DoDSTEM.

### STUDENT ATTENDANCE

Overall, **125** out of the planned 1270 students openings were filled.

**83%** of students were Kids of Active Military Personnel (KAMPers)

### STUDENT SURVEY

**93%** of students would recommend STEMKAMP to their friends.

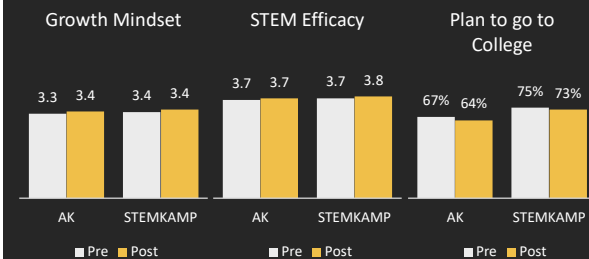

**55%** of students averaged a 3.0 or higher on the SSTEM

Students demonstrated **small increases** in Mindset and STEM Efficacy.

There were **small decreases** in number of students who plan to go to college.

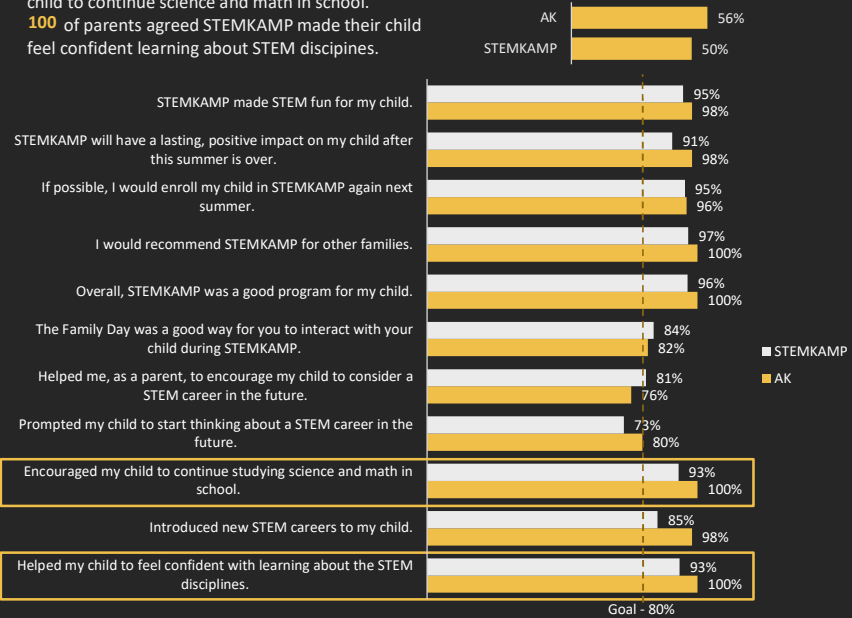

The Growth Mindset survey gauges students attitudes towards learning as a continuous process that involves struggle and perseverance. The SSTEM survey gauges students attitudes toward STEM concepts.

### PARENT SURVEY

**100** of parents agreed STEMKAMP encouraged their child to continue science and math in school.

**100** of parents agreed STEMKAMP made their child feel confident learning about STEM disciplines.

**56%** of parents responded to the parent survey.

### TEACHER SURVEY

**80%** of teachers agreed STEMKAMP encourages students to pursue a future STEM career.
