Student Performance Expectations

- Chinook students in 3rd-8th grades took the MAP test 3 times this year. Additionally, 3rd-8th graders participated in the PEAKS test. Students in K-2nd took the Aimswebs test 3 times this year. MAP and Aimsweb results are at the end of this report.

- When Chinook teachers see students who show poor student performance, remediation is given in many forms. These forms include, but are not limited to; collaborating with the staff, using teaching assistants for extra instruction, modifying class work, enlisting help and advice from the special education staff, involving parent support and knowledge, and giving extra teacher help.

- This year, Chinook teachers had the goal of utilizing technology resources and integrating STEM activities into the curriculum to meet the individual needs of students.

- Chinook continues to work at reaching our school-wide goal of supporting smooth academic and social transitions between kindergarten and primary grades, primary grades and intermediate grades, intermediate grades and middle school, and middle school and high school. At the varying grade levels, teachers met during professional development days and identified benchmarks that will assist students in their transitions and found ways to reach these benchmarks through student, parent, and teacher collaboration. For example, different math skills were identified as crucial to successful student transitions. Teachers have also continued to communicate about transitions during the current school year, and this goal will continue to be addressed throughout future years.
Student Enrollment and Mobility

- The enrollment at Chinook is very stable. Last year 95% of our students returned from the previous year.

- Our Novice Classroom (Kindergarten) welcomed 10 new families this year.

- Our new students mainly fill slots in the seventh grade and kindergarten classrooms. This is because the kindergarten classroom has no “feeder” classroom, and we only “feed” sixteen sixth graders into the seventh-grade room and there is room for twenty-two seventh graders. We do not take new eighth grade students because Chinook’s program is so different, we want students to have more than one year to adjust.
Description of Charter School Activities

**Novices (Kindergartner Students)**

Novices (Kindergartner students) – Novices were introduced to all 15 attributes, focusing on learning the new vocabulary. Novices worked on learning the differences between fiction and nonfiction and how to read and write both. They learned how to write in letter format and participated in the school-wide mail program. They have printed uppercase and lowercase letters. Novices worked on learning place values and adding and subtracting numbers up to four digits. Novices sorted animals into classifications and labeled their parts. They focused on the 5 kinds of vertebrates (fish, amphibians, reptiles, birds, and mammals) and learned the different characteristics of each. Novices studied continent names and labeled the countries. They worked on telling time and counting coins. Novices practiced playing rhythms on several kinds of percussion instruments. They demonstrated grace and courtesy in the classroom, and while exploring our community during field trips.

**Apprentices (Primary Students)**

Apprentices (Primary students) – The Apprentice classrooms learned about the world by focusing on two specific biomes. We looked at each continent and compared the cultures and animals of the mountain and wetland biomes found there. We studied the Dolpa people of Asia, the Konso of Africa, the Cajuns of North America, and the Quetchua people of South America.

We were also fortunate enough to have several guests share their knowledge with us. We learned from NASA scientists through video conference, had baking lessons, met a biologist who studies water quality, and saw how satellites capture images of the earth.

For our yearly science focus with partnered with GLOBE to study weather and climate. Students used scientific equipment to measure temperature, precipitation, and cloud cover at our school each day while working with their mentor buddies. This data was shared with NASA, where it could be used by the global community.

Our students have begun to work with more technology in the classroom. We are learning to research online with BrainPOP Jr., to use
Google Classroom to share ideas and materials and to present what we are learning and give positive feedback through video diaries FlipGrid.

We have also bolstered our writing program this year by putting a strong focus on printing, cursive, and typing lessons. We are teaching students to proofread and edit, as well as learning about literary devices.

**Pioneer (Intermediate Students)**

Please follow the links below to complete your Friday work. Work on math, spelling, and Expectations after completing all your Friday work. Let’s have a great morning together! Pioneer students started out the school year learning about Prehistoric People. As a culminating activity Pioneers traveled out into the woods to complete numerous tasks in four-person “clans.” To complete these tasks, students were only able to use natural materials. These tasks included creating a four-person shelter, a water container, and a tool for digging.

Pioneers also continue learning science topics using the STEM model. This year, science topics centered around the study of chemistry and human body systems. The implementation of Google Suites for Education continues in the Pioneer room. Student technology skills continue to expand with Google extensions like Flipgrid and Brainpop.

Sixth grade Pioneers are currently completing their passage projects which includes six to ten hours of community service, a five-paragraph essay detailing their service, and a final presentation to their family and peers. Some community groups the Pioneers are giving to are Loving Companions, the Lathrop Ballroom Dance Team, and Adaptive Soccer for All Players (ASAP). The reason for Passage Projects is to show the Chinook community students are ready to transition to the next step in their education.

**Mentors (Middle School Students)**

Mentors (middle school students) - Mentors at Chinook Montessori Charter School have had a very busy school year. We spent the first couple weeks of the year going on field trips in the community. We learned about canoeing and participated in canoe chaos at Tanana Lakes. We spent time outside at Creamer’s Field, Gold Dredge 8, and Calypso Farm. We also visited the Permafrost Research Tunnel later in the first trimester and volunteered at the Fairbanks Community Food Bank.

Mentor teachers pull small groups for math, covering 7th-grade math, 8th-grade math, and for some, Algebra 1. For social science, students learned about current United States history and the geography of the world. In science, some topics students studied include the human body, food chains, and space science. Mentor students spent a lot of time practicing writing essays and responding to literature.

Mentors organized two fundraisers for their 8th-grade trip, a Fall Carnival and two play performances. This Spring the 8th-grade Mentors from both classrooms will spend a week in Boise, Idaho. Students will participate in a plethora of educational activities such as; completing a service project for the Boise Parks and Recreation Department, visiting the zoo, experiencing an art museum,
visiting an aquarium, an old state penitentiary, a botanical garden, the Idaho state capital, and a science discovery center.

All eighth graders complete a Passage Project. Passage is a project that students show independence, self-reflection and community service. They complete a physical challenge, a service project, an apprenticeship, and a case study, all before presenting to their committee. At their final meeting, they show that they are ready for the next stage of life, high school. Students practice their self-motivation skills, organization, and managing their time wisely; all skills they will need in high school and in life.
Major Changes Planned for The Following Year

With Paul Fontes retiring, we hired a new Apprentice teacher, Joanna Mackey. Our longtime assistant, Barb Tallan plans to retire.

We are developing a plan to transition to having more students and a more consistent head teacher. If funding allows, we would like to have a roving teacher who focuses on head teacher duties, along with renewing our charter and building lease. The following year, we would look to add another, smaller, 4/5/6 classroom. This smaller class would boost our total school count to around 165. We would pull 5 new students at 4th grade, rather than pull new students in 7th grade. Getting new students in 4th grade would allow them better understand our unique Chinook routines.

**Other Information of Interest to the School Board & School District Administration:**

Chinook Orientation/Visitation went well this year. We advertised on Chinook’s new Facebook page, reaching close to 4,000 people. Additionally, we sent out flyers to the preschools in the Fairbanks area, including FNA headstart and ThrivAlaska. We also posted the flyer at Fred Meyer and The Children’s Museum. We had advertisements in the Daily Newsminer, Flyerboard (Newsminer online), and in the Alaska Post (military newspaper). Public service announcements were played on KWLF, KCBF, KUAC, KJNP, KIAK, and KFAR.

In February, three Chinook teachers were able to attend the ASTE (Alaska technology conference) in Anchorage.

Four teachers completed the Google Certified class the FEA union facilitated. We now have 3 Google Certified teachers at Chinook.

Two Chinook teachers participated in the district ALICE training. We spent the 2018-2019 school year making a school safety plan. Before introducing ALICE to our students, we held a parent meeting. We continue to practice scenarios with our students.
