**Chinook Program Goals**

1. **Stable Enrollment:** Excluding those who move out of the area, the school will aim for a voluntary re-enrollment 90%.
   
   - For the 2022-2023 school year, 100% of our current K-7 students plan to return to Chinook.

2. **Community Instruction:** Chinook has set a goal of involvement by guest speakers and guest instructors in and out of school to equal at least 500 hours each year. We will calculate the hours based on the time guests spend teaching individuals, small groups, and whole classes.
   
   - Each of our 15 graduates spent a week working alongside a community member in their apprenticeship (about 475 hours). Our students also received instruction from various guest speakers learning about Fairbanks stormwater, space, circuits, the legal system, insects, volcanoes, subsistence living, yarn dying, rocks and minerals, and Alaska animals. Students also spent time at the UAF museum, Fairbanks Children's Museum, Calypso Farm, and concerts with Fairbanks Concert Association. We reached this goal with about 505 hours.

3. **Community Service:** Chinook has set a goal of offering at least 500 hours of student community service each year. We will calculate hours based on the time individual students perform community service.
   
   - Our students spend 248 hours spent in service projects for passage requirements, 150 hours writing letters to people in the community, 80 hours digging potatoes and will spend time cleaning up trash in our school’s neighborhood.

4. **Educational Program:** 100% of students will have an individualized learning program emphasizing academics, self-discipline, and responsible behavior as members of a learning community.
   
   - Students make weekly and yearly goals in academic, physical, and social areas. Students also write weekly reflections on work selections and write letters to themselves in which they reflect on their overall goal progress each trimester.

5. **Parent Satisfaction:** The school has a goal of having 90% of the parents surveyed indicate that they are satisfied with Chinook.
   
   - Data from the 2020-2021 school year parent school climate survey indicates that 87% of our parents graded us a B or above.
• A parent satisfaction survey was sent out in April. Twenty-seven percent of our families responded. The data indicated that 100% of our parents believe we are doing an excellent or satisfactory job incorporating our foundational aspects.

6. **Small School Size with Low Adult-Student Ratio**: In order to maintain a family-like atmosphere, increase learning and meet the individual needs of students, Chinook will maintain a small enrollment. The school will be limited to approximately 150 children. The teacher-student ratio will not exceed 1:24.

• Chinook continues to be a small school. The teacher-student ratio does not exceed 1:24. We have 7 classroom teachers, a full-time resource teacher, a head teacher, and 4 classroom assistants to meet the needs of our students.

7. **Parent Involvement**: Chinook will provide an unprecedented opportunity for parents to have hands-on involvement in the structure and operation of the school. Ninety percent of all families will volunteer an average of fifteen hours per trimester.

• *Parents logged 2200 of 4000 hours as of Mid-April, 83% of families have tracked their hours*

8. **Reading Competence**: 80% of all students will be at or above grade level in reading

• According to the 2022-2023 school year MAP scores 65% of our 3rd-8th grade students scored at or above the mean MAP reading score. Fifty-one percent of our students saw growth in their MAP from Fall to Winter results.
• According to the 2022-2023 school year AIMS data, we have a lower percentage of students in the high-risk tier in Kindergarten, first and second grade. In Kindergarten
65% of students were at high risk in the fall, compared to 31% now. In first grade, 73% of our students were at high risk in the fall, compared to 47% now. In second grade 47% of our students were at high risk in the fall, compared to 26% now.

- New materials were purchased to help have a well-rounded literacy program. Seeing a need to enhance our instruction, five teachers enrolled in the CORE online Elementary Reading Academy and three will attend the Alaska Science of Reading Symposium.

9. **Montessori Training**: 100% of the Chinook educators will participate in ongoing training or continued teacher research. Eighty percent of the Chinook teachers will be Montessori certified.

- Four out of five of our K-6 teachers are Montessori Trained. The sixth teacher will begin training in the next year. Our middle school teachers and special education teacher have attended National Montessori Conferences and completed an Introduction to Adolescents course through a Montessori School. One middle school teacher is lower Montessori training.
- Pending funding, our teachers will attend the AK STEAM conference in Juneau in October.

**Student Performance Expectations**

Chinook students took district assessments three times this year. MAP & AIMS reports are found on page 44. Last year’s PEAKS results are located on page 37.

When Chinook teachers see students struggle to perform at grade level, remediation is given in many forms. These forms include, but are not limited to; collaborating with the staff, using teaching assistants for extra instruction, modifying classwork, enlisting help and advice from the special education staff, involving parent support and knowledge, and giving extra teacher help. SST (Student Support Teams) are used as a first step to meet and discuss student needs formally. The team will then choose to move forward with special educational testing or will come up with intervention strategies to best support students in the classroom.

**Student Enrollment and Mobility**

The enrollment at Chinook is very stable. Last year 109 of our students returned from the previous year and we welcomed 27 new students. Before the school year started 10 students transferred out of the district and 2 transferred to another district school. After the school year started 9 students transferred out of the district and 3 transferred to another district school.

Description of Charter School Activities

Novices (Kindergarten Students)

Novices (Kindergarten students) – Novices were introduced to all 15 attributes, focusing on learning the new vocabulary. Novices worked on literacy everyday, including phonetic awareness, word building, sentence building, and sight words. They worked on writing stories with pictures only, then pictures and words. They have
printed uppercase and lowercase letters. Novices worked on numbers to one hundred, place values, counting by 5’s and 10’s, and addition and subtraction to 20. They also worked on learning place values of numbers up to four digits. Novices sorted animals into classifications and labeled their parts. They focused on the 5 kinds of vertebrates (fish, amphibians, reptiles, birds, and mammals) and learned the different characteristics of each. Novices studied continent names and labeled the countries. They worked on telling time and counting coins. Novices practiced playing rhythms on several kinds of percussion instruments. They demonstrated grace and courtesy in the classroom, and while exploring our community during field trips.

**Apprentices (Primary Students)**

Apprentices (Primary students) – The Apprentice classrooms explored cultural and scientific studies through in-depth learning on North America, South America, Africa, stars and planets, layers of the earth, birds, reptiles, fish among other animals, plant parts to name a few.

Going Out Groups took students into the community to study spiders of Alaska, ice skate, learn about some Alaska Native cultures through hands-on exploration, magnets, bowhead whales, and more. Many guest speakers visited the classroom to help add to topics such as geology, our solar system, and Alaskan seabirds and salmon.

Students chose their daily literacy and math work choices based on their individual needs and lessons given. Students documented their daily learning by adding their work to binders. Each week, students chose work from these binders to represent their overall learning for each trimester in their Student Portfolios.

Each trimester, Apprentices chose a topic of interest for their Expert Files. During the third trimester, to demonstrate readiness for becoming a Pioneer, Gammas chose a topic of study for their Gamma Passage project which included in-depth research, a research paper, and a final presentation.

**Pioneer (Intermediate Students)**

Pioneer students began the school year with an Early People simulation. They started out by learning about the early people’s lifestyle and survival skills. In order to simulate the early civilization experience, the students spent time in a remote area creating a “shelter” and making materials and resources from their surroundings. After the students developed different skills, the students were “rewarded” with an authentic Early People meal.

Pioneers also continue learning science content using the STEM model. This year, our science curriculum centered around chemistry. Some topics that were taught include solubility, acids/bases,
molecular structure, and phases of matter. The implementation of Google Suites for Education continues in the Pioneer room. Student technology skills continue to expand with apps like Seesaw and Kahoot it.

One literacy project the students developed over multiple weeks was the creation of a historical fictional storyboard. This storyboard allowed the students to use their imagination to write multiple writing pieces throughout the last few months of school while using the setting they created as a class.

Sixth-grade Pioneers are currently completing their passage projects which includes six to ten hours of community service, a five-paragraph essay detailing their service, and a final presentation to their family and peers. Some projects they are currently working on include raising money to buy supplies for Ukrainians in need and working at the food bank.

**Mentors (Middle School Students)**

Mentors at Chinook Montessori Charter School have had a very busy school year. We spent the first month of the year participating in the Fairbanks Trails Challenge. Hiking the trails gave us the opportunity to practice observation and classification of local flora using a dichotomous key, scientific drawing, nature writing, and utilizing RPE and heart rate techniques to monitor workout intensity.

Science continued with viruses, cellular organization, human body systems, DNA, and genetics. Students learned to use microscopes and created their own cell models. For social studies, we covered government and civics, including the roles of the executive, legislative, and judicial branches, checks and balances between the branches, and amendments to the constitution as well as the political geography and biomes of Europe and the United States.

Art and technology met in the mentor room as we learned to use soldering irons for wire art sculpture, Dremel rotary tools for wood carving, and our new 3-d printer to design mini-monuments. In language arts, students organized and ran themed book groups including graphic novels, non-fiction, and poetry. They read short stories, explored interesting vocabulary, wrote to reflect on their work, and participated in writers’ workshops.

Our new Montessori-based math program allowed students to explore their own interests through math projects shown at a math fair at the end of each trimester and to go at their own pace through their grade-level standards and beyond. Short units helped them focus on specific topics and skills, including Euclidean construction, numeration, graphing, 2d and 3d objects, and working with equations. Students made connections between subjects through a study of math history.

Mentors organized several fundraisers for their 8th-grade trip, including a Fall Carnival, two play performances, a silent auction, and a number of bake sales. Students had initially prepared to attend a Montessori Model United Nations conference in New York City, a trip that had to be canceled due to covid. (We held our own conference here in Fairbanks, so no learning was wasted!) After investigating possible alternate destinations the 8th-grade students presented their plan to both their parents and the Chinook board and are now scheduled to spend 10 days this spring in Washington, DC exploring the educational opportunities there.
All eighth graders complete a Passage Project. Passage is a project that students show independence, self-reflection, and community service. They complete a physical challenge, a service project, an apprenticeship, and a case study, all before presenting to their committee. At their final meeting, they show that they are ready for the next stage of life, high school. Students practice their self-motivation skills, organization, and managing their time wisely; all skills they will need in high school and in life.

**Major Changes Planned**

In the 2023-2024 school year we intend to add one more Pioneer (4/5/6) classroom. This third class would boost our total school count to 174. Aside from the 2023-2024 school year, each year we would take in 6 new students in 4th grade, rather than pull in new students in 7th grade. Getting new students in 4th grade would allow them to better understand our unique Chinook routines. We would continue to fill our 16 Kindergarten spots each year.

      3. is there a way that we could do it independently, with our own program?

IV. Head Teacher Report

The end of the student count is this week. We will average right around 150.8. We projected 150 for this school year, so the .8 will result in more funding. Our next year's projection is set at 155 (16 average in K-6 and 43 in Mentor classes).

As of October 6, our landlord is Chase Edstrom with Edstrom Investments. I am working with him to plan for the potential expansion for the 2023-2024 school year. We will be filling out the borough tax exemption paperwork. It seems that there was confusion about this. He is looking at grants for solar panels and a backup generator.
The staff participated in Diversity, Equity and Inclusion training today. It was led by Kate LaPlaunt in a partnership with the Fairbanks Coalition Builders. Most schools have or will be participating in this same training.

School goals for the year:
- By the end of the school year, 80% of our students will be at or above grade level in reading.
- By the end of the 2021-2022 school year, 90% of our families will volunteer an average of 15 hours a trimester.
- At the end of each trimester, students will be able to reflect on their use of the introduced attributes of that trimester.

COVID
Some cases in the school since our last meeting. We are still following CDC guidelines and asking everyone to quarantine when they have been a close contact. This is different than the non-charter schools in the district. We now have antigen tests to use at the school to test students who do not show symptoms.

   iv. Joanna-found Saturday’s materials exciting.
e. Discussion: Board Yearly Calendar, Board goals for the year
   i. Look at Calendar provided by Christina
   ii. Darcie was wondering about approval of outside speakers by board, needs clarification as to whether that is for classroom or board meetings.
   iii. Wendy to Christina-goals that are common for school boards? Should goals align with school goals?
   iv. Christina-Accreditation for school district ongoing, parent survey is part of this. Goals could also be to change bylaws, creating an onboarding document, digital document (Wendy).
   v. Wendy asked-how many have seen the board document? Only 2-3 members have read it.
   vi. Andrea requested that the training documents be included with the “Board Member” book
vii. Robert will get the older book and start making updates to the document.

f. Action: set calendar for the monthly meetings for the school year
   i. Create a set schedule for when board meeting will meet. Wendy
      motioned to make board meeting the 3rd Monday of every month at 18:15,
      seconded by Shauna, except if it falls on a holiday or school closure.
      During these months, the second Monday will be reserved for the board
      meeting.
      Vote: unanimously approved.

g. Discussion: Mentor Trip
   i. Mentors had plans to go to NYC for Montessori Model UN Conference in
      February. Received that you have to have a vaccine card to enter any
      restaurant or hotel within the city limits. Teachers sent out a survey to
      parents, with mixed results, but there was a short deadline to make a
      decision. Decision was made not to participate in the Montessori Model
      UN, registration fee was non-refundable and there was an additional
      cancellation fee. Too much risk involved in taking the trip, too many
      concerns to address in a short amount of time.
   ii. A mentor trip may be challenging to plan this year because of vaccine
       requirements. COVID waiver is not an option for the trip.
   iii. Are there other options for a mentor trip? Looking to get Mentors involved
       in the planning of the trip. This is a return to previous years when the
       Mentors were very involved in the planning and funding of the trip.
       Mentor teachers are working to get back to that model of the Mentor trip
       and reset mentor expectations and understanding of what the trip means.
   iv. Teachers reached out to parents on seesaw to inform the families and get
       the students working on the planning, budgeting, and building the trip
       details.
   v. Wendy recommended that a Chaperone application process be
      implemented to limit the number of parents that can attend the Mentor
      trip.
   vi. Students will present to the Chinook School board once ideas on a trip
       are gathered, consider presenting to FNSB. If special meeting is
       required, let Robert know.

Christina explained that the masks are to allow students and staff to return to school as normal with shared materials and group work.
