- 1 District Leadership Team meeting
- 1 Advisory Committee Meeting
- 1 Community meeting

Meeting Discussion Stats

- Total # participants = 86
- Total # of ideas = 480+

Exit Tickets (from you)

- *Valuable* = know the big picture, the process, loved MeetingSphere, knowing the district is doing this so many stakeholders
- *Tell others* = this is about community buy-in, this is a well thought out plan, it involves many different stakeholders in an intentional way
- *Questions* = How do we do training? How do we engage my school stake holders? What will the policies look like? What in school suspension supports can we use? What about Alaska Native in put?

CREATING STRONG SCHOOLS & COMMUNITIES

Roll-Call Opening Activity…

The best virtual training/meeting I have ever attended was great because…

education northwest
CREATING STRONG SCHOOLS & COMMUNITIES

Fairbanks North Star Borough School District

What are the strengths of the school district in making students feel welcome and respected?

❖ Back to School Activities

❖ Staff Characteristics

❖ Relationships – Students

❖ Over-all School Climate

SUCCESS

"Ignition mentors - each high school has mentors who have been trained to help and support new students or freshmen. They eat lunch with students who may be new to the community, they answer questions, etc."

"Teachers are willing to see each student in their environment/strengths/weaknesses/ and strengthen their academics to suit their needs."

"Some schools have very welcoming entrances into the building. There is a greeter at the entrance smiling at students and parents, welcoming them to the building. The entrance is bright and cheery with posters with positive affirmations hanging."

"School Climate is...

... based on the patterns of people's experiences of school life; it reflects the norms, goals, values, interpersonal relationships, teaching, learning and leadership practices, and organizational structures that comprise school life."
