The Military Child Education Program was established to assist military personnel and/or their families with information and resources intended to ease the transition of dependent children from one duty location to the next and to:

- Advocate for the educational needs of military children and assist Airmen and families with information and referral regarding local school districts and other educational options including home schooling, private schools, charter schools, and cyber/virtual schools.
- Provide information, referral services to families and students enrolled in the EFMP (Exceptional Family Member Program).
- Ensure school personnel (classroom teachers, guidance counselors and senior school officials) are aware of the unique issues impacting military children (e.g., deployments, frequent moves, etc).
- Monitor any significant changes in dependent school demographics that may affect federal funding formulas to local education agencies.
- Help personnel and/or families understand district policy and resolve problems.
- Assess needs and provide continuing work/life services.
- Provide information on Partnership Programs (volunteering in local schools)--making a difference in our communities!
