

Parent Notice
School Health Update

Dear Parents,

Your child may have been exposed to head lice in school. Now would be a good time to check your student's and close family member's heads. If live lice are found, students may not return to school until properly treated.

Do not hesitate to contact your School Nurse for management recommendations and support. You can also visit the Nursing Services Webpage (<https://www.k12northstar.org/Page/6839>) for information and resources related to the management of lice.

We appreciate your attention,
Nursing Services
