

TENTATIVE AGREEMENT

**7700 Hazardous and Unsafe Conditions:**

No principal shall be required to search for a bomb or any other destructive device. Pursuant to applicable state and federal law and regulations, the District shall cause reports of unsafe and hazardous conditions to be investigated and will work with appropriate borough employees to inform principals of the results of environmental testing concerning district facilities.

If the District requests that a principal administer medicine or provide any health or medical services, the District will provide any necessary training.
