K - 12
SOCIAL STUDIES CURRICULUM

ADOPTED: APRIL 16, 2013
# TABLE OF CONTENTS

## SECTION A: INTRODUCTION

- Acknowledgements .................................................................................................................. 1
- Philosophy .................................................................................................................................. 2
- Mission ......................................................................................................................................... 3
- Explanation of Terms ..................................................................................................................... 4
- Standards Alignment Coding ....................................................................................................... 6

## SECTION B: ELEMENTARY (K-6)

- Elementary Overview .................................................................................................................. 7
- Ongoing Learner Goals – Elementary (K-6) ................................................................................ 9
  - Kindergarten ............................................................................................................................... 10
  - Grade 1 ...................................................................................................................................... 14
  - Grade 2 ...................................................................................................................................... 18
  - Grade 3 ...................................................................................................................................... 23
  - Grade 4 ...................................................................................................................................... 29
  - Grade 5 ...................................................................................................................................... 34
  - Grade 6 ...................................................................................................................................... 39

## SECTION C: MIDDLE SCHOOL (7-8)

- Middle School Overview ........................................................................................................... 44
- Ongoing Learner Goals – Secondary (7-12) ............................................................................... 45
  - Grade 7 ...................................................................................................................................... 46
  - Grade 8 ...................................................................................................................................... 55

## SECTION D: HIGH SCHOOL (9-12)

- High School Overview .............................................................................................................. 60
- Graduation Requirements .......................................................................................................... 61
- Ongoing Learner Goals – Secondary (7-12) ............................................................................... 62
  - **Alaska Studies** ...................................................................................................................... 63
  - **World Studies** ....................................................................................................................... 69
    - World History 1 ....................................................................................................................... 70
    - World History 2 ....................................................................................................................... 74
    - World History Honors 1 & 2 ................................................................................................. 79
    - Advanced Placement (AP) World History ............................................................................. 79
    - Advanced Placement (AP) European History/Literature ...................................................... 80
  - **American Studies** .............................................................................................................. 81
    - Recent United States History 1 ............................................................................................. 82
    - Recent United States History 2 ............................................................................................. 89
    - Advanced Placement (AP) United States History ............................................................... 97
### Government Studies
- American Government ................................................................. 98
- American Legal Systems ................................................................. 99
- Advanced Placement (AP) United States Government & Politics ............ 106

### Contemporary Economic Studies
- Principles of Economics ................................................................. 113
- General Economics ........................................................................... 115
- U.S. in a Global Economy ................................................................. 121
- Advanced Placement (AP) Macroeconomics ....................................... 127
- Advanced Placement (AP) Microeconomics ........................................ 134

### Electives
- Advanced Placement (AP) Art History ............................................. 134
- Advanced Placement (AP) Comparative Government & Politics ............ 135
- Comparative Religions ...................................................................... 136
- Current Issues & Events .................................................................... 140
- Diversity in America ......................................................................... 143
- Global Issues ................................................................................... 147
- Psychology ....................................................................................... 151
- U.S. in a Global Context .................................................................... 152
- Women’s History .............................................................................. 156
- World Geography .............................................................................. 159

## SECTION E: APPENDIX

### Resources
- K-12 ............................................................................................... 163
- Elementary ..................................................................................... 165
- Suggested Activities & Resources: K-5 ............................................. 174
- Secondary ....................................................................................... 177
- American Studies ........................................................................... 181
- Project R.E.A.C.H. .......................................................................... 182
- Constitution/Citizenship Day ........................................................... 183

### Literacy Resources
- Teaching with Documents: Analysis Worksheets ................................ 184
- 6+1 Trait® Historical Writing Rubrics .............................................. 195

### State Standards
- Alaska Standards for Literacy: Grades 6-12 (Adopted June 15, 2012) .... 217
- Alaska History .................................................................................. 227
- Government/Citizenship ................................................................ 235
- Geography ...................................................................................... 238
- History ............................................................................................. 240

### National Standards
- Social Studies .................................................................................. 242
- History ............................................................................................. 243
- Civics & Government ...................................................................... 249
- Economics ....................................................................................... 252
- Geography ....................................................................................... 256
- Five Themes of Geography ............................................................. 257
SECTION A: INTRODUCTION
ACKNOWLEDGEMENTS

CURRICULUM DEPARTMENT

Peggy Carlson – Executive Director of Curriculum & Instruction
Michelle Daml – Elementary Curriculum Coordinator
Melanie Hadaway – Secondary Curriculum Coordinator
Kimberly Gatto – Materials Development Specialist

REVISERS

Nathan Arnold – Barnette Magnet School
Amy Gallaway – West Valley High School
Ken Gieser – Ryan Middle School
Sarah Gillam – North Pole Middle School
Cynde Jacobsen – Tanana Middle School
Fawn Jelinek – Hunter Elementary School
Jeff Lesseig – Barnette Magnet School
Barbara Marshall – Lathrop High School
Sue McIntosh – Content Coach, Curriculum Dept.
Hillary Midgley – North Pole Middle School
Karen Millington – Joy Elementary School
Danette Peterson – Lathrop High School
Heather Walker – Ben Eielson High School
Katie Kennedy – UAF, Alaska Geographic Alliance

WE WOULD ALSO LIKE TO RECOGNIZE

The Board Curriculum Advisory Committee, the Fairbanks North Star Borough Board of Education and the many teachers, administrators, parents and community members who have so willingly given of their time and expertise in the planning and revision process of this document.
PHILOSOPHY

The study of social studies is a process that develops from kindergarten through high school. This development helps students to understand their place in the world and their roles and responsibilities.

The study of history is important to students because past events provide context for understanding present and future challenges. Studying geography will provide a basis for understanding nature and the influence of climate and terrain on human cultures. Understanding how the social sciences play a significant role in the growing global economy will provide valuable preparation for students. The social sciences will help students appreciate the uniqueness of individuals and the diversity within and among groups of humans as well as compare the United States society to other societies.

Social studies education provides students the opportunities to gain and apply historical knowledge and to perform the skills as indicated below. The students will:

• Develop critical-thinking skills, responsible decision-making and competency in problem solving, interpreting data and differentiating between fact and opinion.
• Prepare to participate competently and productively as concerned citizens in society.
• Address the ever-changing global issues of our world.
• Become aware of their roles as citizens in society and prepare to participate actively, competently and productively.
• Utilize literature, community resources and technology.

Through activities, students will be engaged directly and actively in the learning process. Activities will include:

• Using factual knowledge.
• Examining values.
• Communicating with others.

Studying the social sciences will enable the learner to make appropriate decisions about social and civic affairs in a climate that stimulates students to respond to the human condition in the world today.
MISSION

The Fairbanks North Star Borough School District will provide opportunities for active exploration and critical evaluation of complex and diverse Social Studies issues through participatory citizenship activities. School and community projects that model democratic principles will be implemented to provide decision-making and problem-solving experiences for students.

The core curriculum will encompass the social studies strands of history, geography, civics/government, economics and cultural studies. The study of Alaska, America’s heritage and world civilizations will include multicultural perspectives and an understanding of global interdependence.

Central themes will be carried across a coherent and relevant K-12 continuum. Interdisciplinary studies and cooperative learning environments at all grade levels will promote higher-level thinking skills and civic efficacy. Research based instructional materials, programs and technology will be used to master the processes necessary to function in an information rich global society.

We are committed to three key research-based principles of curriculum based on *Schooling By Design*, by Wiggins and McTighe (2007).

- Success at transfer depends on understanding the big ideas that connect otherwise isolated or inert facts, skills and experiences so that new challenges can be met and new experiences understood.
- An understanding is a learner realization about the power of an idea. Understandings cannot be given; they have to be engineered so that learners see for themselves the power of an idea for making sense of things.
- Learners need clear, completely transparent priorities and a practical understanding of how learning goals are to be met in terms of work products and standards of excellence.
EXPLANATION OF TERMS

Alaska Cultural Standards
Standards endorsed by the State Board of Education serve to encourage enrichment of the content standards. They are used as a guide to ensure that schools are aware of and sensitive to their surrounding physical and cultural environments.

Alaska State Standards
High academic standards are an important first step in ensuring that all Alaska’s students have the tools they need for success. These standards reflect the collaborative work of Alaskan educators and national experts from the nonprofit National Center for the Improvement of Educational Assessment. Further, they are informed by public comments. Alaskan teachers have played a key role in this effort, ensuring that the standards reflect the realities of the classroom.

Benchmark
A benchmark is a point of reference against which individuals are compared and evaluated. The high school benchmark equivalent, called the High School Graduation Qualifying Exam (HSGQE), is also required of students before they can receive a high school diploma.

Essential Learnings
Each of the Essential Learnings is what the FNSBSD expects students to know at a mastery level by the end of each grade level or course.

Essential Questions
Essential questions drive the knowledge and skills that students need to know, understand and be able to do in order to succeed in school. The essential questions are determined by unpacking state standards and creating measurable targets.

Guaranteed and Viable Curriculum
A guaranteed and viable curriculum (GVC) is one that guarantees equal opportunity for learning for all students. Similarly, it guarantees adequate time for teachers to teach content and for students to learn it. A guaranteed and viable curriculum is one that ensures that the curriculum being taught is the curriculum being assessed. It is viable when adequate time is ensured to teach all determined essential content.

Informational Text
This is text designed to convey factual information rather than tell or advance a narrative. Informational text may employ techniques such as lists, comparing/contrasting or demonstrating cause/effect, and may be accompanied by graphs or charts. Most textbooks consist of primarily informational text.
**Learning Targets**

Learning Targets are the essential skills and concepts our students master during classes and investigations.

**National Council of Social Studies (NCSS) Standards**

Intended as a companion to content standards, the social studies curriculum standards are an indispensable framework for the implementation of content standards. The standards continue to be structured around the themes of social studies.

**Ongoing Learner Goals**

These are goals that are fostered and reinforced on every suitable occasion. Mastery is not assigned to a specific grade level or course.
The Social Studies curriculum has been aligned with the Alaska Content and Alaska History State Performance Standards. The complete text of the standards may be found in the appendix. The following coding is used throughout this document to correlate the core objectives with the Alaska Content and Alaska History State Performance Standards.

**ALASKA CONTENT AND CULTURAL STANDARDS**

*This example is History.*

Content Standard → **H.B.8a** ← Standard and Subdivision (if necessary)

E/LA = English/Language Arts
M = Mathematics
S = Science
GY = Geography
G/C = Government and Citizenship
H = History
HL = Skills for a Healthy Life
A = Arts
WL = World Languages
T = Technology
EM = Employability
L/IL = Library/Information Literacy
CS = Cultural Standards

**ALASKA HISTORY PERFORMANCE STANDARDS**

Alaska History Performance Standard → **AH.PPE.2** ← Standard

PPE = People, Places, Environment
CPD = Consumption, Production, Distribution
ICGP = Individual, Citizenship, Governance, Power
CC = Continuity and Change

National and Alaska State Standards may be accessed in the Appendix of this document.
