

Parent Feedback - Parent Guide To the Online Feature

Parents and guardians can give feedback on teachers using paper forms or online through the PowerSchool Parent Portal using a web browser. The online Parent Feedback feature is not available when using a mobile app. The online feature is typically available from fall parent teacher conferences through January.

The survey consists of 13 multiple choice questions and also provides an opportunity to enter comments. Information you provide will assist principals in making fair and informed assessments on the performance of teachers and will contribute to the improvement of instruction in our district.

Parents and guardians are encouraged to use the online feature. Alternatively, click [HERE](#) to access the paper Parent Feedback form.

Teacher Selection Introduction FAQ

November 5, 2015

Dear Parent:

As part of the Fairbanks North Star Borough School District's teacher evaluation process, the district would like your input on the performance of your child's teacher(s). The form used for your input has been developed by a committee comprised of parents, teachers, principals, board members, and district administrators to give you an opportunity to share information on the performance of your child's teacher(s) and either electronically or by hard copy. If you are the parent of a secondary student, please complete an input form for each of your child's first semester teachers. If you are an elementary parent you may complete a form for your child's teacher, as well as provide input on the performance of other certificated staff such as elementary music and physical education teachers. Input forms are available to be downloaded at the district's web page at www.k12northstar.org. Additional forms are available at each school. Forms not submitted online may be returned to the school principal in a sealed envelope.

The district also welcomes input on the performance of principals, counselors, and other administrators. These input forms for providing feedback on an administrator's performance may be obtained from any school, the human resources office, or the web page noted above.
