Fairbanks North Star Borough School District

# Class Size Report

## Elementary and Secondary Schools

Fall 2014

Prepared by:

Kathy Hughes, Executive Director  
Alternative Instruction & Accountability

December 2, 2014

**TABLE OF CONTENTS**

Executive Summary ..... ii

Elementary Schools ..... 1

Middle Schools ..... 2

High Schools ..... 4

Charter Schools ..... 5

Appendix A – Individual Elementary School Enrollments

Appendix B – Individual Secondary School Enrollments

## **EXECUTIVE SUMMARY**

The purpose of the annual class size report is to provide information on the number of students in individual classrooms and the average class sizes in schools and the district. This report presents the average number of students enrolled in elementary, middle, and high school classes in the fall semester. Appendix A presents individual elementary school enrollments in regular classes. Appendix B presents enrollment data for each period of the day in middle and high schools.

### ***Notable Facts:***

Class sizes are important for making staffing adjustments as enrollments fluctuate within schools and across the district. The school district makes every attempt to keep class sizes as low as funding will allow. This report does not present total enrollment figures, but rather the average class size for regular education classrooms. It is important to note that the actual size of individual classes may vary considerably. Class size averages in this report are based on enrollment data extracted from the district's student records system on October 1, 2014.

### ***What is Being Measured:***

For the purpose of this report, class size is measured as the number of students instructed by a teacher during a period. Class size averages for each school are derived by dividing the number of students enrolled in regular classes by the number of regular classes. In elementary schools, students generally remain together in the same class with the same teacher throughout the day. Therefore, a single number represents the class size for each elementary teacher, by grade level. In secondary schools, class sizes vary from period to period. Average class sizes do not include students enrolled in preschool programs, self-contained special education classes, English Language Learner (ELL) classes, charter schools, alternative programs (such as SMART or Golden Heart Academy), or advisory periods. Where comparable statistics are available, historical data for the previous five years are provided.

### ***What the Results Show:***

Class size data for 2014 shows:

- 7,051 K-6 students in elementary schools, with an average class size of 23.3
- 1,692 students in middle and junior high schools, with an average class size of 22.6
- 3,480 students in high schools, with an average class size of 23.5

## ELEMENTARY SCHOOLS

At the elementary schools, the average class size on October 1, 2014 was 23.3 students. This calculation is based on 303 regular education classrooms with a total enrollment of 7,051 students (see Table 1). All elementary school class size averages include students who are integrated into the regular education classroom for at least a portion of the academic day. These averages do not reflect students enrolled in preschool programs or self-contained special education classes.

Individual school averages vary, ranging from 17.0 at Salcha to 24.8 at Pearl Creek. Historical data for the past five years is also included in Table 1; the current class size average of 23.3 students is slightly lower than the previous year.

\* Excludes 97 7<sup>th</sup> and 8<sup>th</sup> graders in 5 classrooms at Barnette and Two Rivers.

Average class sizes at each grade level are presented in Table 2. The grade levels with the lowest and highest average class sizes are, respectively, 1<sup>st</sup> grade classrooms with 21.8 and 4<sup>th</sup> and 6<sup>th</sup> grade classrooms with 24.5 students per class. Class sizes for kindergarten represent the total enrollments in the classroom for both morning and afternoon classes which generally

overlap for two and a half hours, during which time an aide is present. Historical averages for the past five years are also included in Table 2.

**MIDDLE SCHOOLS**

At the middle schools, the overall class size average for 7<sup>th</sup> & 8<sup>th</sup> grade classes on October 1, 2014 was 22.6 students. This represents an increase from last year, when the average class size was 22.0. See Appendix B for class enrollments by period at each middle school. Students also may earn grades for the following courses which are excluded in computing class size averages: study halls, advisories, connections, student assistants, stand-alone special education classes, and courses held during nonstandard periods.

Table 3 lists the average number of students enrolled at each middle school by department and Table 4 lists the average number of students enrolled at each middle school by period. North Pole Middle School has the largest average class size at 24.9, and Ben Eielson Junior High School has the smallest average class size with 15.9 students. Average class sizes in the core subject areas of language arts, math, science, and social studies vary by school, between 13.2 and 26.7 students. Not reflected in the class size averages for middle schools are enrollments of seventh and eighth graders at K-8 schools. Additionally, on October 1, 2014, there were 85 students in grades 7 and 8 at Barnette Magnet School and 12 at Two Rivers School. Enrollments for charter schools and the district's correspondence school are reported separately, on page 5 of this report.

\*NPM averages only include 7<sup>th</sup> - 8<sup>th</sup> grade classes. 6<sup>th</sup> grade classes have an average class size of 24.4.

## HIGH SCHOOLS

At the high schools, the overall class size average on October 1, 2014 was 23.5 students. This was an increase from last year, when the average class size was 23.0 students. See Appendix B for class enrollments by period at each high school. Students also may earn grades for the following courses which are excluded in computing class size averages: study halls, advisories, English Language Learner (ELL) classes, outside credit, university classes, aides (library, office, teacher, etc.), assistants (classroom, lab, and tutor), stand-alone special education classes, and courses held during nonstandard periods.

Table 5 lists the average number of students enrolled at each high school by department and Table 6 lists the average number of students enrolled at each high school by period. West Valley High School has the largest average class size this year at 26.0, and Ben Eielson Senior High School has the smallest average class size with 15.1 students. Average class sizes in the core subject areas of language arts, math, science, and social studies vary by school, from 14.4 to 27.0 students. Not reflected in the class size averages for high schools are enrollments of 9<sup>th</sup>-12<sup>th</sup> graders at schools other than traditional high schools. Enrollments for charter schools and the district's correspondence school are reported separately, on page 5 of this report.

\*Standard periods across the district. Some schools have additional periods with additional classes.

## **CHARTER SCHOOLS & BEST**

In addition to nineteen elementary and ten secondary schools, the district includes four charter schools as well as Fairbanks BEST (Building Educational Success Together) correspondence school, with online learning and homeschool programs. Table 7 presents enrollments at these schools. As of October 1, 2014, the four charter schools had a total enrollment of 709 and BEST had a total enrollment of 249 students.

# Appendix A

## Individual Elementary School Enrollments Fall 2014

**KINDERGARTEN NOTE:** Class sizes indicated for most schools' kindergarten classes show the number in the morning session plus the number in the afternoon session, as well as the total enrollments in the classroom. The total enrollments indicate the number of students present during the 2 ½ hours they overlap, when an aide is also present.

**INTEGRATED SPECIAL EDUCATION NOTE:** Adjustments have been made to include special education students who are integrated into a regular education teacher's classroom for a portion of the academic content. These integrated students are indicated by numbers in parentheses.
