

Ticasuk Brown Schoolwide Expectations for the 2014-2015 School Year

Dear Parent and Families,

This year we would like to clearly communicate our schoolwide expectations to students and parents. Please let us know if you have any concerns regarding our safety expectations. Thanks!

Our plan is based on a positive behavior intervention and support model. The plan is to clearly communicate our expectations with all stakeholders, model, teach and reteach our expectations, and praise and reward when students are following the expectations. Thanks again you for your support!
